

PRODUCT CATALOG

CH-70

HYDRAULIC HOLE PUNCHING TOOL

The CH-70 delivers a punching force of 35 tons with a throat depth of 109 mm (4.3 in) for efficient punching of holes in iron plates and copper or aluminium bars. A durable high carbon tungsten steel punch die makes it suited to electrical and construction work.

FEATURES

- 35-ton punching force for heavy-duty applications
- Throat depth of 109 mm (4.3 in) for versatile use
- Handles iron, copper, aluminium and stainless steel
- Durable high carbon tungsten steel punch die
- Ideal for electrical and construction work

APPLICATIONS

PANEL FABRICATION

BUSBAR PUNCHING

CONSTRUCTION

TECHNICAL DATA

Punching force	35 ton
Throat depth	109 mm (4.3 in)
Iron plate capacity	3 – 10 mm
Copper / aluminium bar capacity	3 – 12.7 mm
Stainless steel capacity	3 – 8 mm
Punch die material	High carbon tungsten steel
