EZ-400

ELECTRIC HYDRAULIC CRIMPING TOOL

The EZ-400 is a battery-powered hydraulic crimping tool for cable lugs from 16 mm² to 400 mm². A 360° rotating head and 38 mm jaw opening allow easy insertion and removal of crimping tubes, delivering consistent, precise crimps in tight spaces.

FEATURES

- Crimping capacity 16–400 mm²
- 360° rotating head for tight spaces
- 38 mm opening for various cable sizes
- Auto shutdown at 60°C for operator safety
- Rechargeable battery for cordless operation

APPLICATIONS

CABLE LUGS
