FYQ-1000

HYDRAULIC CRIMPING HEAD

The FYQ-1000 delivers 45 tons of crimping force for heavy-duty cable lugs from 240 mm² to 1000 mm². Built for utility services, transformer stations and large-scale electrical installations, it operates with an external hydraulic pump such as the CP-700.

FEATURES

- 45-ton crimping force
- Cable lugs 240–1000 mm²
- Hexagonal crimp profile for maximum grip and conductivity
- Operates with external pump such as CP-700
- Heavy-duty steel construction

APPLICATIONS

 UTILITY SERVICES

 TRANSFORMER STATIONS

 LARGE INSTALLATIONS

TECHNICAL DATA

Crimping force	45 ton
Crimping range	240 – 1000 mm ²
Crimp profile	Hexagonal
Operation	External hydraulic pump (e.g. CP-700)
Construction	Heavy-duty steel
