YQK-120

HYDRAULIC CRIMPING TOOL

The YQK-120 is a 10-ton hand-held crimper for copper and aluminium terminals from 10 mm² to 120 mm². A hexagonal die system and ergonomic anti-slip handles make it well suited to both field and workshop operations.

FEATURES

- 10-ton crimping force
- Crimping range 10–120 mm²
- Hexagonal die system
- Ergonomic anti-slip handle
- Lightweight rugged construction

APPLICATIONS

TERMINALS

PANEL BUILDING

FIELD WORK
