RATCHET CRIMPING TOOL

Precision ratchet-type crimper for controlled, consistent crimping of insulated and non-insulated terminals. Compact and easy to handle for electrical wiring, automation and panel board work.

FEATURES

- Ratchet system for accurate, controlled crimp force
- Multiple insulated and non-insulated terminal types
- Compact and easy to handle
- Ideal for wiring, automation and panel installations
- Built for repetitive, efficient use

APPLICATIONS

PANEL BOARDS

AUTOMATION

ELECTRICAL WIRING

TECHNICAL DATA

Mechanism	Ratchet, controlled crimp force
Terminal types	Insulated / non-insulated
Design	Compact
Application	Wiring, automation, panel boards
